"The global economic crisis has fundamentally reset the way companies do business and capitalism itself..."

Jeff Imelt, CEO GE

Program Overview

This program is for individuals that are either facing challenges in terms of completing Project on time or stuck in career growth, the Project management with PMP exam preparation program is an interactive and hands-on program, that will provide the tools and techniques to participants to enhance, update and refine their managerial and leadership skills, unlike traditional PMBOK based courses, Our Project management with PMP exam preparation program is structured with the practical examples of project management, communication and integration skills along with the standard knowledge of Project Management given by PMI in PMBOK 4th Edition to achieve success in PMP Certification.

Who Should Attend!

- Project Directors/Project Managers
- Business analysts
- Team Members (Technical & Non-Technical)
- Lead towards Project Managers
Who create, plan and monitor projects & need to provide clients with a project plan and portray a level of professionalism.
- Functional/Business Managers

Workshop Experience

Facilitator will lead you through hands-on workshops where you will learn the structured way of planning and executing the Project & best practices to monitor the project outcome. Specially selected questions will give participants the knowledge to appear in PMP Exam and pass it on first attempt.
